PROJECTS

Zara Store (2024)

🔗 https://lancer7178.github.io/Bdaya-e-commerce

Final project in Team Bdaya course.
Developed a responsive e-commerce website using HTML, CSS, Bootstrap, JavaScript, and jQuery.
Improved website performance and responsiveness across different devices.

Ani Watched (2024)

🔗 https://lancer7178.github.io/Ani-watched

This website fetches API from Jikan (Unofficial MyAnimeList).
Built a dynamic platform to fetch and display anime data using API integration.
Optimized API calls to improve website loading speed and performance.

ALtomate (2025)

🔗 https://altomat-foods.com

Worked with the Bowmen Company team to develop an online platform for ordering and delivering food.

Used cutting-edge technologies: Next.js & Tailwind CSS.

Dr.AbdelMoneim (2025)

🔗 https://dr-abdel-moneim.vercel.app

This website serves as the online presence for Dr. Abdel Moneim's Mental Health Clinic, offering comprehensive information about the clinic's services and facilitating patient engagement.
